**Submitted via email c/o:** Chief Daryl Longworth (dlongworth@woodstockpolice.ca); Deputy Chief Rod Wilkinson (rwilkinson@woodstockpolice.ca)

Dear FOI Coordinator,

This is a formal request for access to general records, made under the *Municipal Freedom of Information and Protection of Privacy Act* as a result of unlawful, fraud-based "COVID-19" activity by men and women working for the Woodstock Police Service.

### Application Fee

I will mail a cheque for the \$5 application fee to the address listed above, with a note indicating the purpose of the cheque.

### Description of Requested Records:

All studies and/or reports in the possession, custody or control of Daryl Longworth (serving as Chief); Rod Wilkinson (serving as Deputy Chief) or Woodstock Police Service describing the **purification** of the alleged "**COVID-19 virus**" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

### Clarification of Request:

Please note that I am **not** requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a "genome" from millions of sequences (allegedly) detected in an impure substance, and/or
- produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am **not** requesting records that describe **replication** of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply request records that describe **purification** (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, **authored by anyone, anywhere.**

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

### Format:

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.
